EXPERIENCE

Mercor — Software Developer

June 2023 – December 2023

Developed a robust sneaker API capable of efficiently fetching data from multiple websites. Created an intuitive user interface utilizing Next.js and seamlessly integrated it with the Node.js backend.

A2SInnovate — Software Developer

June 2023 – July 2023

Contributed to the development of Codemate, a cutting-edge VS-code extension leveraging the advanced capabilities of Langchain and OpenAI. Skillfully integrated Pinecone Database, enhancing long-term memory functionality.

PROJECTS

Cognitive computing on personalized Data — Web Development

October 2023 – March 2024

Developed a web-based platform enabling seamless interaction with data. The platform accommodates diverse data formats including files, audio, images, and YouTube videos, empowering users to effortlessly communicate with their information. Leveraging advanced machine learning models and LLM, the system provides comprehensive summaries of input data. Additionally, integrated with a vector database, the platform enhances long-term memory.

tech Stack: **Next.js, Langchain, Python Flask, Firebase, Pinecone.**

GoalTube— App Development

March 2022 – May 2022

Developed an AI-based platform that enhances credibility by providing comprehensive completion of Youtube tutorials. Upon finishing the course, users are required to participate in a randomly generated quiz. Only those who achieve a score above the predefined threshold will be able to download the certificate.

tech Stack: **Flutter, Firebase, NLP, and the Youtube API**

Car Service App— App Development

January 2021 – March 2021

This application will remind you to service your car at the desired time. You can share your current location with the technician, post ads to resell your cars, and generate detailed invoices for the services performed.

tech Stack: **Flutter, Firebase Firestore, and Firebase Storage.**

EDUCATION

B.E Information Engineering

Vidyalankar Institute of technology
(VIT), Mumbai

8.82 CGPA (pursuing)

Diploma in Computer Engineering

Vidyalankar Polytechnic

95.03% (2021)

TECHNICAL SKILLS

Language Proficiency

Python, C++, Dart, JavaScript, SQL

App Development

- Flutter (Dart)
- React Native

Framework/ Library

- React, Next, NodeJS
- Python Flask
- Langchain
- Probot
- Vscode extension

Database

- MongoDB
- Firebase
- Pinecone

Data Science & Machine Learning

Numpy, Matplotlib, Pandas, sklearn

Hosting

Netlify, Vercel, Heroku, Firebase.

Version Control System

- Git and GitHub

Blockchain

- Hardhat, Ganache, Polygon
- Metamask, NFT, IPFS.

POSITIONS OF RESPONSIBILITY

technical Head – (2022-2023)

Information technology Student
Association (VIT)

ACHIEVEMENTS

- Grabbed **2nd** prize among 550 participates in my final year diploma project.
- Won **multiple hackathons**.

Speaker

Getting started with firebase, PocketBase, AppWrite

Conducted an informative session on Firebase, Pocketbase, and Appwrite. Shared practical insights and use cases, expanding attendees' understanding of these platforms. Facilitated interactive discussions and addressed participants' queries, ensuring a comprehensive learning experience.

EXTRACURRICULAR ACTIVITIES & HOBBIES

- **Built ITSA committee** website and deployed on the internet.
- **Football competition** winner in my high school.
- **Painting**, Drawing, and Sketching.
- **Helping** fellow friends with their projects.

HACKAtHONS

HackVerse 3.0

1st track Prize - AndroMedia
NIT Karnataka – Surathkal

CodeUtsava 5.0

1st Panel Prize
NIT Raipur

Refaktor techno

1st Prize
VJTI Mumbai

Unscript2k22

1st prize
Fr. Conceicao Rodrigues College
of Engineering

Powertofly Global Hackathon

2nd Prize
Power~~t~~oFly

HackPrints 1.0

2nd Prize
the Maharaja Sayajirao University of
Baroda
